

IF THE ROOF IS THATCHED OR PART THATCHED PLEASE COMPLETE AND RETURN THIS QUESTIONNAIRE

If any chimneys are used for open fires or enclosed solid fuel stoves, including Aga, Rayburn or similar cooking ranges, please complete this questionnaire and return it to John Albion & Partners, Norwich

CHIMNEY 1

What is the chimney used for? (eg open fire, or type of stove)

If a solid fuel stove is installed please describe the type of appliance including the make and model if known

What is the heat output of the stove in kilowatts?
Alternatively, please provide the approximate dimensions of the stove excluding any stand

How often and for how long is the stove used?

Does the chimney pass through a thatched part of the roof? YES NO

Does the chimney rise centrally through the thatch? YES NO

If *NO*, where is the chimney located in relation to the thatch?

Has the chimney been relined or rebuilt? YES NO

If yes, when was the chimney lined or rebuilt?

What was the method or type of lining used?

Please answer all the relevant questions for each chimney in use. If there are more than two chimneys used in association with open fires or enclosed solid fuel stoves or cooking ranges, please give the same details for the other working chimneys.

CHIMNEY 2

What is the chimney used for? (eg open fire, or type of stove)
